THE PALESTINE FLAG

The flag of Palestine is a tricolour of three equal horizontal stripes (black, white & green) overlaid by a red triangle issuing from the hoist. This flag serves as a powerful emblem of Palestinian identity and unity, representing their resilience, aspirations for peace, and their ongoing struggle for self-determination.

MASJID AL-AQSA

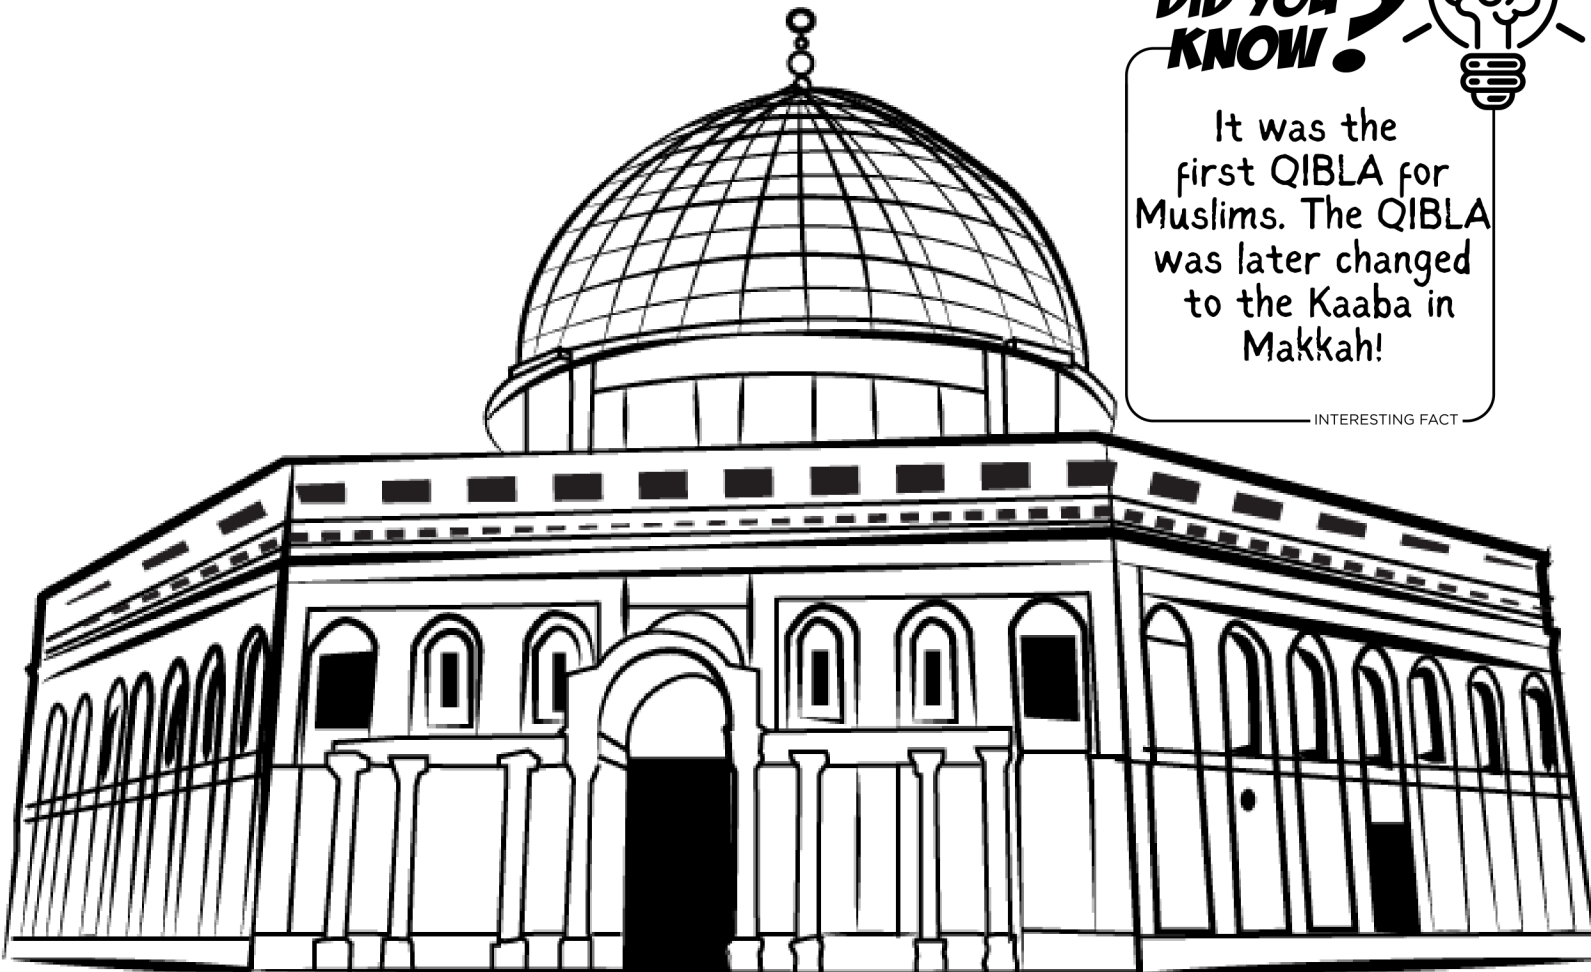

Masjid al-Aqsa, meaning "the Farthest Mosque," is the place where the Prophet Muhammad (peace be upon him) made his miraculous Night Journey (Isra) from Mecca to Jerusalem, and from there ascended to the heavens (Mi'raj). Masjid al-Aqsa isn't just a single building; it's part of a larger compound known as the Haram al-Sharif. Masjid al-Aqsa is the third holiest mosque in Islam. It is a very blessed and important place for Muslims

**DID YOU
KNOW?**

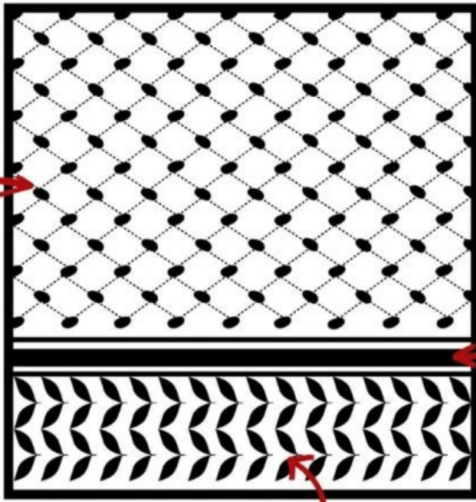

It was the first QIBLA for Muslims. The QIBLA was later changed to the Kaaba in Makkah!

Economic and cultural
significance of olives

Palestine is home to some of the oldest olive trees in the world, with some trees believed to be over a thousand years old. These trees have been passed down through generations, representing continuity and connection to the land. Olive oil is a staple ingredient in Palestinian recipes.

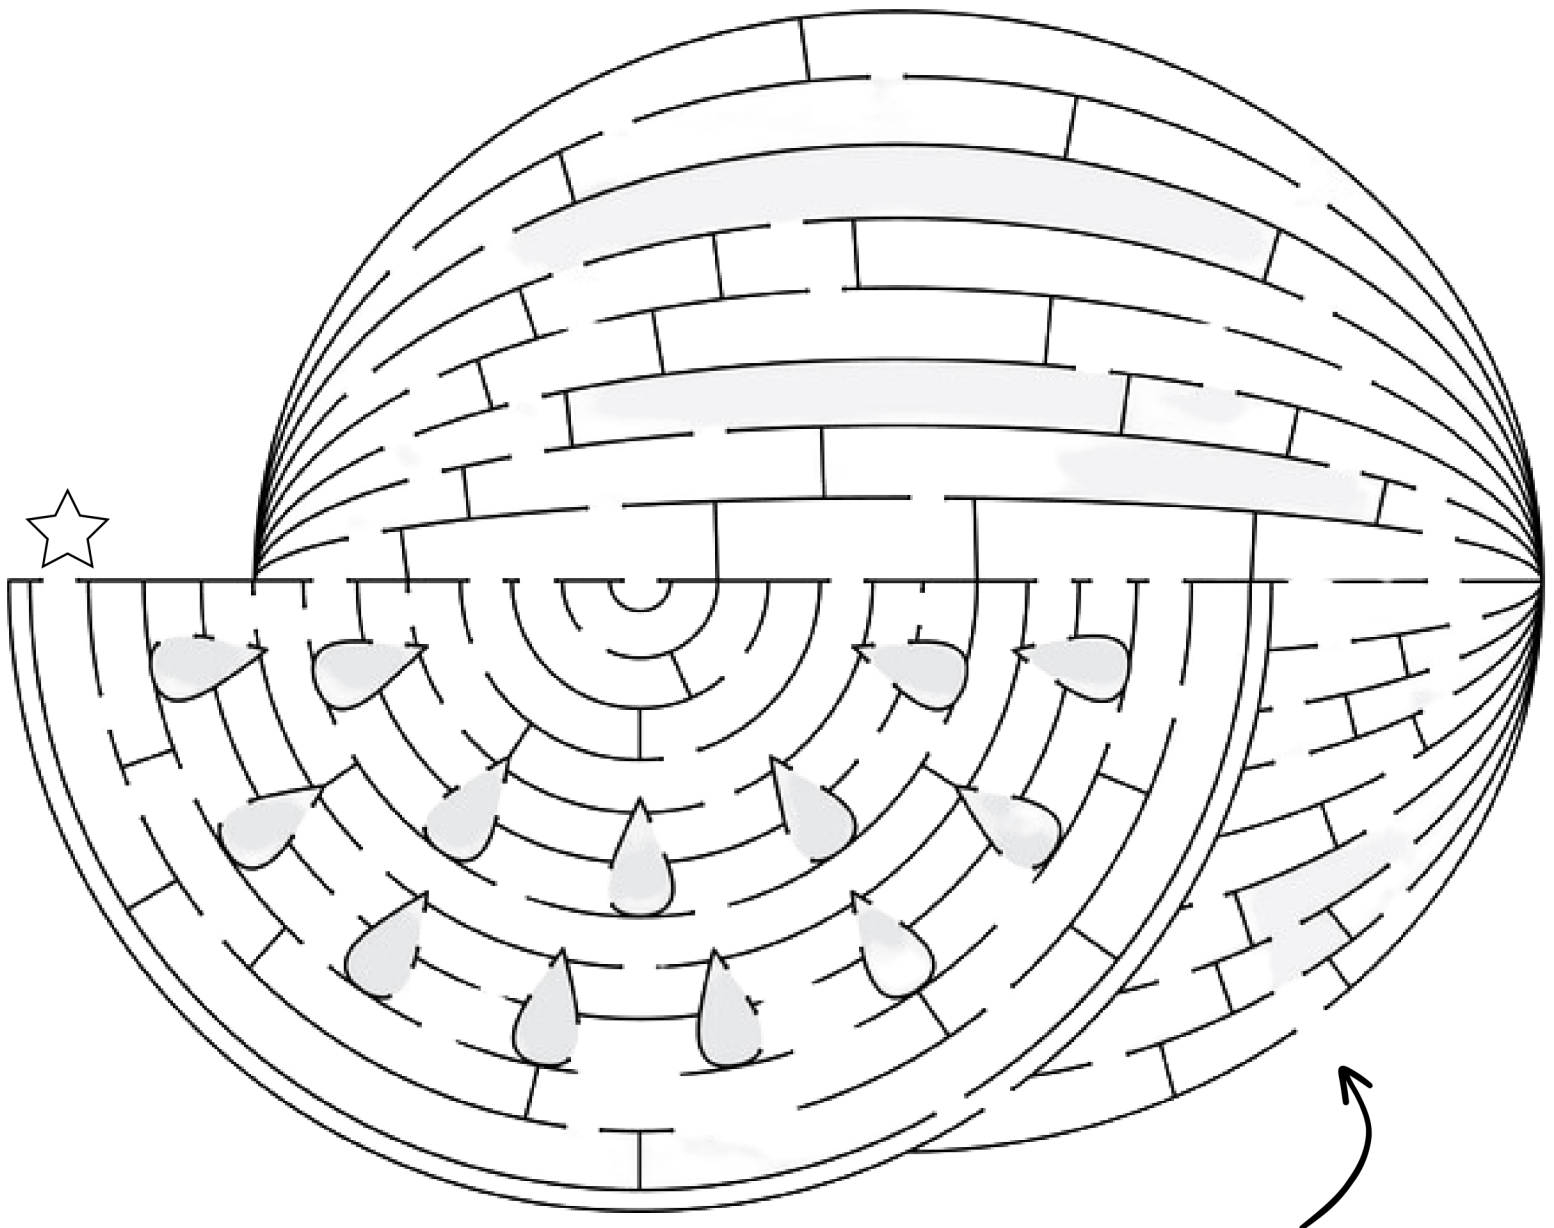

Palestine is famous for its embroidery known as "tatreez." It is a cherished and intricate form of art that holds deep cultural significance. These designs serve as a form of visual storytelling, preserving Palestinian heritage and identity.

THE RESISTANCE

Watermelon is grown across Palestine and has become an icon of resistance.

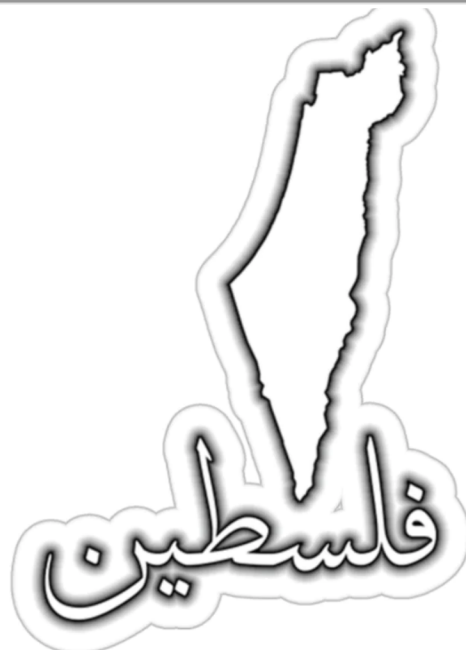

Since 1967, the Israeli government has banned any public displays of the Palestine flag. Sharing the same colours as their flag (red, green, white and black)- the watermelon became a subtle method of protest against the suppression of Palestinian culture and identity.
